the proportions of the proportions of the proportions of the proportion of the propo Amother jury to t.y the star route there is no doubt of the principle of the wide star route crowd. The millions were stolen as charged in the indiction of the former times. But generally the star stolen as charged in the indiction of all former times. But generally the star stolen as charged in the indiction of all former times. But generally the star stolen as charged in the indiction of all former times. But generally the star stolen as charged in the indiction of all former times. But generally the star stolen as charged in the indiction of all former times. But generally the star stolen as consistent as consistent in the star of time dependence in a personal stolent in the star of time dependence in the star of time star personal stolent in the star of time star to the star personal stolent in the star personal stolent which are collitating the field now than when the same of pupilation was much smaller and the juvinitian in substantian and exiture were much from . This the ranks of medicerity are much from . This the ranks of medicerity are much pupilated to the survivide strings must be applied to the unwisley mans of account laterature that is thrown upon the world'by op many contributing machine. So the survivide many contributing many chicks. So the survivide was seen able to take up that we worked the survivide was survivided to the up that we worked the survivide the survivide works are comparated. This is the survivide we compared their works are compared to the results.

those are guerred, their works are com-pleted. As may left them so they remain.

And yet friends ranks of mediousity, among these who desittle or nothing that is original these are good and valuable workers. A line of mode is new insuing from the press which of hooks in new insume from the press which sull illustrates this statement. They are smallle and i holograps books for children and youth, in which a legislaphy, natory, arch sollers and travent and combined—like The Boy Trapellers in the Top East by Mr Thomas W. Knex, or "he Wonderful City of Tokio by Mr Edward jump. The shilldren are the great painers from this kind of hierary labor. A better study of child nature has been made than ever triffere. The old tolog of repression is now spacefied to be wrong for the best development of the normal qualities of he althy childhood. The children are after all found to be of like leaves and passions with thos apon whomethey depend for protection and guidance. They are little men and women and their these samuet be secretal bu must be gently wintelered to and directed Thus we rejoice in the sof that while theraps a wast quantity of chi dren's literature so called there is very little of it come arattene. If at is
